--End users of the ammunition are:

Vasiliy Volovod  
Dmitriy Terentiev  
Andrei Lebedev  
Andrei Kochegarov  
Vyacheslav Skulin  
Sergey Lubimov  
Sergei Shiyanov

--The previous order dealt with Berger bullets. Now we are ordering Hornady and Sierra bullets produced by different manufacturers.

--Each shooter uses about 200-300 rounds of ammunition per month. A team uses about 2,000 rounds of ammunition monthly. The license is valid for several years and the bullets will be used within this period of time.

--The bullets will not be re-sold or used for commercial purposes.

--All bullets will be used domestically in Russia strictly for sport shooting and hunting. They will not be used for any other purposes. They will not be re-exported.

--I am aware of the prohibition against unauthorized re-export of US-origin defense articles. I treat those laws with respect.

¶2. A check with Russian authorities indicates that Volovod does have authorization to import ammunition and/or ammunition components and provide them to other individuals in Russia.

¶3. Post notes that both target shooting and hunting are popular sports in this region of Russia. If you have further questions, please contact Pol/Econ officer Carol Trimble (trimblec.a.state.gov).
